9. ☐ Other _____

All claims pending thus being allowable, prosecution on the merits is closed in this application. A statement of the examiner's reasons for allowance is provided in the paragraphs, which follow below.

REASONS FOR ALLOWANCE

Claims 1, 2 and 5-15 are allowed.

The instant application is deemed to be directed to a nonobvious improvement over the invention of Horiuchi (U.S. 6,344,932 B1), as being a representative example in the art to which the instant invention pertains. In particular, said improvement provides a compact, high-image quality small zoom lens that is suitable for three CCD's.

More specifically, independent claim 1 is drawn to a small zoom lens comprising a positive first lens group, a negative second lens group, a positive or negative third lens group and a positive fourth lens group as claimed, specifically wherein the third lens group comprises at least one aspherical surface, and comprises a meniscus negative lens whose concave surface faces the object side and a lens having a positive refractive power, arranged in that order from the object side and satisfies the condition: $4.01 < |f_3/f_4| < 60$ (Claim 1, lines 9-11 & 21-22).

The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

OTHER REMARKS/INFORMATION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Choi whose telephone number is (571) 272-2324. The examiner can normally be reached on Monday-Friday from about 9:00 am to 6 pm.
